Current Sprint — New Feature/Page

Upload a single screenshot. It's checked for layout, alignment, text, spacing, colour, and missing/extra elements.

03.jpg

Analyze

43/100

Minor

Minor visual alignment and spacing inconsistencies are present alongside moderate concerns regarding missing asterisk definitions, fine print clarity, and potential accessibility contrast issues; none are release-blocking but require attention for compliance and UI polish.

Severity Breakdown

Findings

CATEGORY	DESCRIPTION	SCORE	SEVERITY
text	The asterisk (*) in 'Two bags for the price of none' included, and 'That's Transparency.' is not defined within the text itself. A footnote or hover text explaining the asterisk should be provided.	65	Major
spacing	The text 'Not ready to buy yet? Save this flight for later.' appears to have uneven spacing compared to other elements on the page.	20	Trivial
alignment	The 'Log in for faster checkout' button seems slightly off-center compared to other elements.	15	Trivial
colour	The color scheme of the promotional banner (yellow) seems consistent, but it might be worth checking if it meets accessibility standards for contrast.	55	Major
text	The fine print 'By clicking 'Continue' you accept the fare rules and continuing with the purchase.' could be clearer or more prominent.	60	Major

75/100

Major

A substantial 6.01% pixel mismatch indicates a noticeable visual regression that likely impacts UI consistency and should be reviewed before release.

45/100

Minor

A minor text mismatch was detected where a numeric/status value changed from '3' to '5, 2 delayed', likely reflecting dynamic data or a minor content update rather than a critical UI defect.

Severity Breakdown

Findings

CATEGORY	DESCRIPTION	SCORE	SEVERITY
text-mismatch	Text differences detected between baseline and current (26% of baseline word count changed). Changes: "-3", "+5", "+", 2 delayed".	45	Minor
